Applications are invited for multiple tenured/tenure-track faculty positions at all ranks in the Department of Industrial Engineering (IE) within the Whitacre College of Engineering (COE), Texas Tech University (TTU), Lubbock, TX. Exceptional candidates may also be considered for endowed positions. Founded in 1934, the department is one of the first IE departments in the nation and the first in the state of Texas. The department has a distinguished history of outstanding scholarship, with recent funding from NSF, DOE, ONR, DOD and NIH, as well as for offering excellent, personalized educational opportunities. Additional information about the department is available at http://www.ie.ttu.edu. The Department of Industrial Engineering has numerous laboratory facilities, including manufacturing, ergonomics and materials characterization.

TTU is a comprehensive Tier I research university that includes law and medical schools with an enrollment of more than 35,000 students total. The Whitacre COE consists of the Departments of Chemical, Civil, Construction, Electrical & Computer, Industrial, Mechanical, Petroleum Engineering and Computer Science.

Successful candidates must possess a Ph.D. in IE or closely related field, be eligible to work in the United States, and have excellent communication skills. Candidates should also demonstrate abilities in high quality research for competitive funding, teaching both undergraduate and graduate courses (including distance education), advising PhD students, and providing appropriate service to the department, university and the profession. While the department is seeking applicants in all areas of IE, the particular interests will be given to manufacturing and systems engineering.

Interested applicants should submit a curriculum vitae (CV), cover letter, one page statement of research interests, one page statement of teaching interests, and the names and contact information (email address or phone number) for at least three professional references online at: http://www.depts.ttu.edu/hr/. Search Postings for Requisitions No. 5275BR and No. 5276BR. Applicants must complete both requisitions in order to be considered for employment. Review of applications will begin immediately and continued until the position is filled.

As an Equal Employment Opportunity/Affirmative Action employer, Texas Tech University is dedicated to the goal of building a culturally diverse faculty committed to teaching and working in a multicultural environment. We actively encourage applications from all those who can contribute, through their research, teaching, and/or service, to the diversity and excellence of the academic community at Texas Tech University. The university welcomes applications from minorities, women, veterans, persons with disabilities, and dual-career couples.
